15 February 1968

MEMORANDUM FOR: Commander, Naval Intelligence
Command, Pentagon

SUBJECT : Request for Construction of Relief Model

1. The Central Intelligence Agency has a requirement for a plastic relief model, scale 1:25,000, of the Khe Sanh area of South Vietnam.
2. It is requested that permission be granted the Naval Reconnaissance Technical Support Center, Suitland, Maryland, to prepare the model, and to grant them the use of 80 hours of civilian personnel overtime, which they estimate will be needed to complete the project by 1 March, when the model is needed by this Agency.
3. Preliminary discussions with Commander Connell, Commanding Officer, NRTSC, indicate they have the capability, with our technical and reproduction support, except for the civilian overtime requirement, to successfully complete the project by that date.
4. Your assistance in this matter will be appreciated.
